## Product Introduction 产品介绍

Elektra C – Downlight with glass trimming is a high quality LED lamp in an aesthetically crafted exterior. This downlight is widely adopted in commercial spaces and homes. A Elektra™ Square downlight of 6 inch 12w is suitable for replacing 24w CFLs and >80w incandescent lamps to achieve a cost savings of at least 55% in electricity usage. User can expect to break-even between 6 months to 1 year based on 6 hours to 14 hours usage. Our Elektra™ series uses high quality Epistar 5730 LED chipset and driver from Taiwan to maximize durability, thus enhancing returns on investment for users.

## Features 产品特点

- Professional Optical Design, no visible dark spots on lamp, smooth and comfortable light effect;
- Glass edge trimming gives an added touch of class to your environment;
- Easy installation of direct plug and play to 230v AC;
- Slim, modern profile for easy installation in false ceiling befitting new homes and commercial spaces;
- The useful life can be 20,000 hours; Lifespan is 10 times longer than CFL;
- Strong heat dissipation achieved with advanced heat sink design and good aluminium.
