Product Introduction 产品介绍

Elektra™ Great Value Adjustable Downlight is a sure winner in providing the greatest value to any user. Although selling at a low and competitive price, we insist on using only high grade Bridgelux LEDs and driver for the LED downlight. This guarantees performance; giving a strong assurance for the light quality and long lifespan of the downlight. The casing is made of high quality aluminium with a classy finishing. This LED downlight is definitely a great bargain for anyone! The Elektra™ GV has also been installed in hotel lobbies, retail outlets entrances, walkways and many residential homes.

Features 产品特点

- Bridgelux LED chipset;
- Low price, high quality, great value;
- The useful life can be 20,000 hours; Lifespan is 10 times longer than CFL;
- Strong heat dissipation achieved with advanced heat sink design and high grade aluminium material used.
