Thronos LED Table Series – TTS01

Description: An elegant LED cocktail table for all occasions. Each table easily handles 10 – 12 people. Dynamic multi-colour lights flowing from the table will enhance the vibrancy of its surrounding. With ergonomics and anthropometry in mind, the table is made at a comfortable height to suit most people.

The weight and curved up design also provides for stability while having an aesthetic look to the table. Being waterproof, it can be employed in any indoor or outdoor functions. This is highly recommended for any networking sessions.

Making things simple, the table does not need any electrical wirings during its 'show time'. The un-corrosive PE material also makes maintenance a breeze. Finally, the lightly matt finishing adds a complete touch to the high quality and luxurious event you are organising.
